Subject: public meeting on lyndhurst removal project

Tony, Ray Basso is reaching out to the mayor's office (Mayor Giangeruso) on May 8 to see if the mayor can confirm our venue for the requested date of May 22. The mayor's assistant, Amelia Jarvis, informed me today that the mayor wanted a briefing by EPA for the mayor and town council on the matter before a meeting is scheduled. I think this is not necessary and Ray will communicate that to the mayor's office. We would be glad to brief the mayor prior to the meeting, just not prior to scheduling a meeting. I will be in south Jersey at another site on Wednesday but have asked Wanda Ayala to keep you in the loop on the matter. Thanks.
